Weeks Dyeworks to DMC Floss Conversions

These are approximate color matches—the Weeks floss actually has more color variations and some of their colors have no equal in DMC floss. We're not giving you "green, reddish-orange, blue-green" etc... as so much is left up to interpretation. You can mock up the look of the Week's variegation by alternating short lengths of each color given or just look at all of the colors together and decide for yourself on one solid color to use. There's no real substitute for beautiful hand dyed floss!
